INSTITUTE
OF HEALTH
RESEARCH DEDICATED TO LIFE

The **Centre Hospitalier de Luxembourg**, an acute care, teaching and research hospital with a total capacity of 600 beds and the **Luxembourg Institute of Health**, are recruiting:

An Allergist MD (M/F)

on a permanent, full time contract
for the National Health Service of IMMUNOLOGY-ALLERGOLOGY at CHL
and the department of INFECTION AND IMMUNITY at LIH.

Your mission :

- The management of the clinical activity with a specialised team working in an outpatient Immunology and Allergology unit including a hospital day care and access to hospital beds.
- The translational coordination of research projects for the Allergology – Immunology – Inflammation Research Unit of the LIH.

Our offer :

- An international high-level medicine and research environment in Allergy and Immunology.
- The possibility to integrate a hospital and research institute working with cutting edge technology.
- The legal status of an employee.

Your profil :

- Degree in medicine with specialisation and particularly skills in allergology, and the authorisation to practice medicine in the Grand-Duchy of Luxembourg issued by the Ministry of Health.
- Confirmed experience with solid skills in drug, insect and food allergies, urticaria and angiodema, mastocytosis and specific immunotherapy.
- Confirmed experience in clinical and translational research.
- Knowledge of at least one of the following languages or the determination to learn them: French, German, English or Luxembourgish.

For further information, please visit our websites www.chl.lu and www.lih.lu or contact the Medical Director by e-mail direction.medicale@chl.lu.

Please send your CV and cover letter to the Medical Director, Centre Hospitalier de Luxembourg, 4 rue Barblé L-1210 Luxembourg.
